PROFILE SUMMARY

Computer Engineering undergraduate at Thapar Institute of Engineering & Technology with hands-on experience in front-end web development and open-source collaboration. Proficient in building responsive web applications using HTML, CSS, and JavaScript, with practical experience using Git and GitHub for version control. Eager to apply technical skills, contribute to impactful software projects, and continuously expand knowledge through real-world development.

EDUCATION

Thapar Institute of Engineering & Technology, Patiala

Expected 2029

Bachelor of Engineering (B.E.), Computer Engineering

RMG Maheshwari English Medium School (CBSE)

Class XII: 85%

METAS Adventist School, Surat (ICSE)

Class X: 96.7%

TECHNICAL SKILLS

Programming Languages: C++, JavaScript

Web Technologies: HTML, CSS

Tools & Platforms: Git, GitHub, Visual Studio Code

Technologies Explored: Flutter, MySQL, XAMPP

PROJECTS

Cybersecurity Dashboard (Open Source Contribution)

HTML • CSS • JavaScript • Git • GitHub

- Contributed to the frontend development of an open-source cybersecurity dashboard.
- Enhanced the dashboard's dark theme by refining the color palette and improving visual consistency.
- Implemented responsive UI improvements, including interactive table hover effects and usability enhancements.
- Collaborated through GitHub pull requests, incorporating feedback to improve code quality.

Currency Converter

HTML • CSS • JavaScript

- Built a responsive currency converter using real-time exchange rate data from a public API.
- Implemented dynamic currency selection with country flags and instant conversion results.
- Designed a clean, user-friendly interface with responsive layouts.

Tic Tac Toe

HTML • CSS • JavaScript

- Developed a browser-based two-player Tic Tac Toe game using JavaScript.
- Implemented winner detection, draw logic, and game reset functionality.
- Designed an interactive and responsive user interface.

Stone Paper Scissors

HTML • CSS • JavaScript

- Created an interactive browser game featuring real-time score tracking.
- Implemented gameplay logic using DOM manipulation and event handling.
- Built a responsive interface to provide an engaging user experience.

Student Information Management System (Academic Project)

Flutter • PHP • MySQL

- Developed a mobile application for managing student records.
- Designed the frontend using Flutter and integrated it with a PHP backend.
- Implemented CRUD operations for efficient data management.
- Used MySQL and XAMPP for local database connectivity and testing.

ACHIEVEMENTS

- National-level rank holder in the National Science Olympiad (NSO) (2019–2020).
- Awarded medals in the National Science Olympiad (NSO), International English Olympiad (IEO), and International Mathematics Olympiad (IMO).

SOFT SKILLS

Problem Solving • Teamwork • Communication • Adaptability • Time Management
